INNOVATION IN ENGLISH LANGUAGE TEACHING

Illustration showing children engaged in learning activities. A boy holds a sign that says "LET ME PARTICIPATE!". A girl holds a sign that says "TEACH ME TO THINK!". A boy holds a sign that says "LET ME INVOLVE!". A girl holds a sign that says "LET ME INVOLVE IN WITH OTHER LEARNERS!". A boy holds a sign that says "TEACH ME TO ANALYSE!". A girl holds a sign that says "TEACH ME TO ANALYSE!". A boy holds a sign that says "LET ME INVOLVE!". A girl holds a sign that says "LET ME INVOLVE IN WITH OTHER LEARNERS!".

Innovation does not always mean technology but can also include new ideas or new methods. So innovation in ELT can be as simple as finding new way to engage students in the classroom.

“The key to successful use of technology in language teaching lies not in hardware or software but in "humanware“ our human capacity as teachers to plan, design, and implement effective educational activity. Language learning is an act of creativity, imagination, exploration, expression, construction, and profound social and cultural collaboration”

Mark Warschauer
