## Face the Music ... with technology

By Prof. Alfredo Bilopolsky

NO PARTICULAR TECH  
IS THE SKILL. THE  
SKILL IS BEING ABLE  
TO ADAPT TO NEW  
TECH.

### The Evolution of listening

**Music is one of the few things that can transcend the barriers that separate us, whether it be language, culture or generation.**

**Music tells a story, evokes an emotion and can take us back in time to special moments.**

**Using English songs in EFL classrooms can successfully bring about affective learning through providing a harmonious classroom atmosphere, reducing students' anxiety, fostering their interests and motivating them to learn the target language. Students will regard English songs as part of entertainment rather than work and thus find learning English through songs amusing and relaxed.**

**I believe that the heart does go on**

**I love you baby but face it she's Madonna**

**We're going to Ibiza**

**No dark sarcasm in the classroom**

**Who you gonna call? Ghostbusters**

**There's the man I chose,  
there's my territory**

**The wild dogs cry out in the night  
As they grow restless longing  
for some solitary company**
